

# Restore XYplorer Custom Items In Shell Context Menu

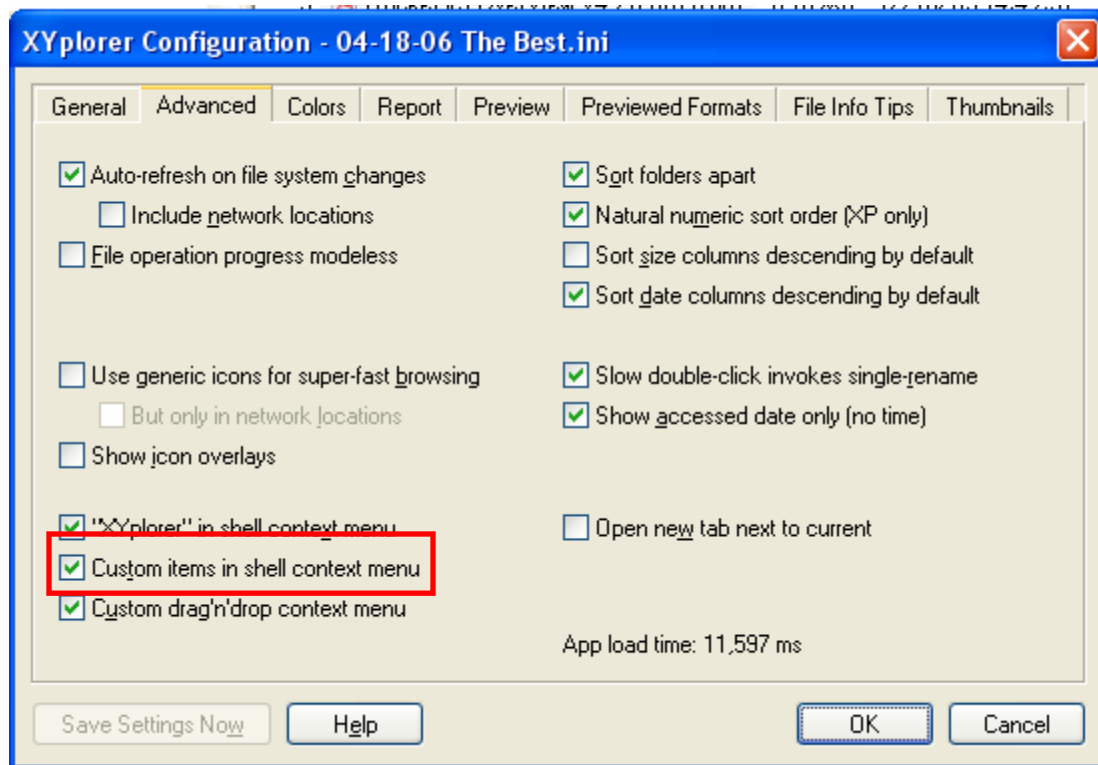

Applicable to XYplorer v4.60 and v5.00

Revised 06/21/06

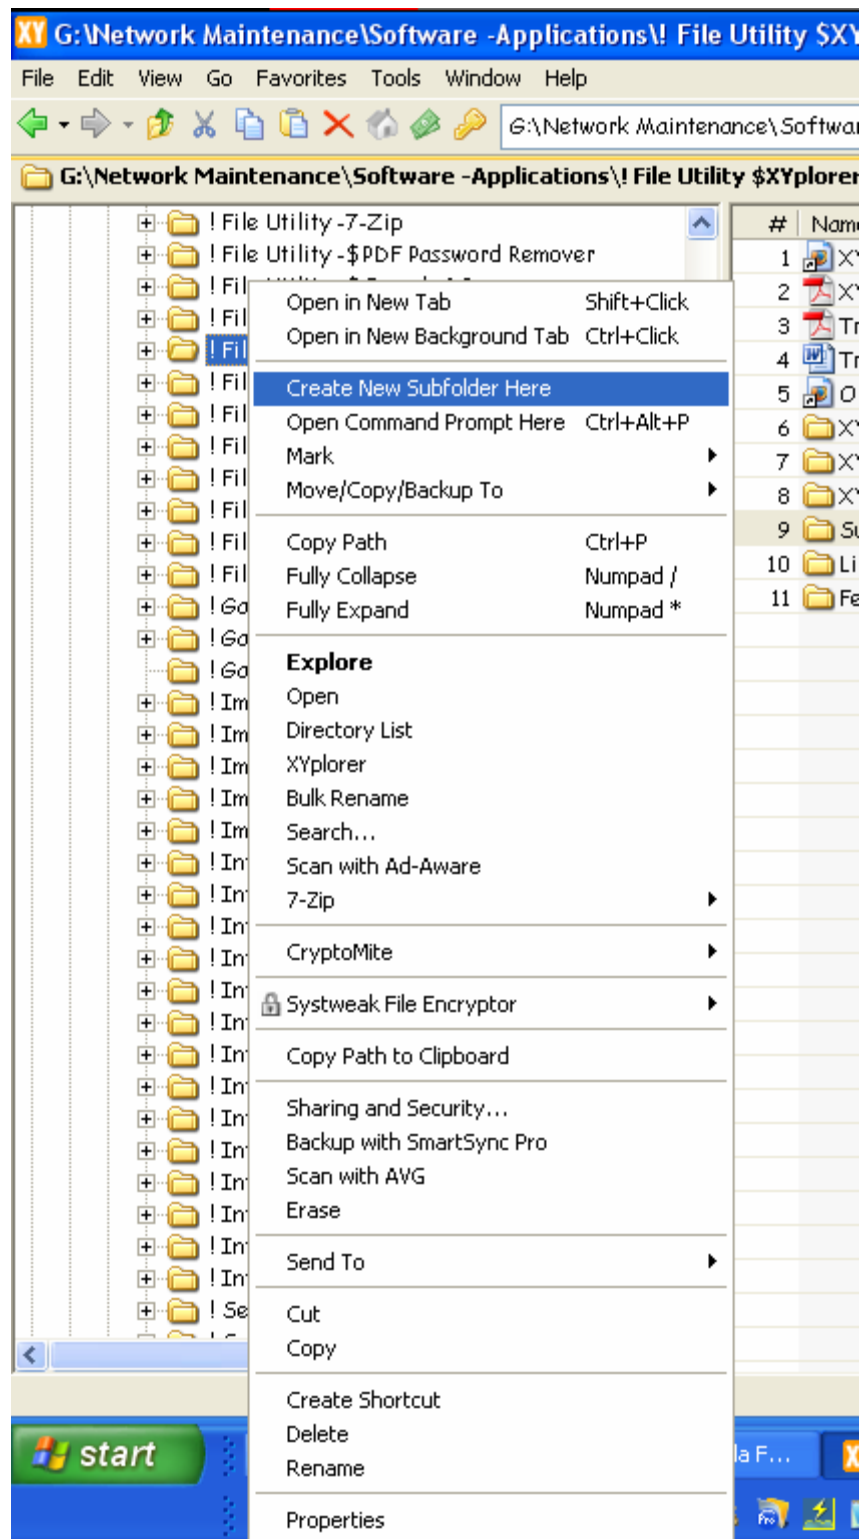

After a fresh install or upgrade of XYplorer it is possible to lose the XYplorer custom shell extensions, as shown above.

Select the "Advanced" tab and put a "check" in the check box titled "Custom items in shell context menu", then press "OK".

The XYplorer custom shell extensions are now activated.
